

Hello

My name is Aya. I'm 20 years old from Jordan. I'm studying in my third year of pharmacy. I have three sisters and one brother. I live now in housing student so leave my parent to be here in my university. At first it was hard to being by myself but it very good thing to be dependent in yourself. I miss my family and home.

I like reading books very much. I enjoyed reading "the power of habit" and meditation and watching YouTube videos. I hope to talk and text once a day. Tell me something do you like to achieve I hope you reach your dreams.

If I had a magic power, I would choose to fly. This is because I feel freedom and I like the feeling of the wind in my face. I loved to go hot air balloon in Cappadocia.

I would like to hear back from you about your hobbies and interests.

With all my love

Aya
