

Aqaba, Jordan
26th Nov 2021

Dear Recipient,

Hello, my name is Majd. I am from Jordan. I live in Aqaba. I want to tell you about my daily routine. I get up early every morning, brush my teeth, eat breakfast, and go to school. In school, we take a lot of lessons, like math, physics, English, Arabic, and other subjects. My favorite subject is world history because I like to know our history and the beginning of eras. I like learning about the beginning of eras because it expresses our culture. When I get back from school, I pray, and help my mom with the housework.

My favorite food to eat is pizza. I crave it the most out of all foods. I play basketball with my friends during the sports lesson. I like basketball because of the sportsmanship, and the cooperation between team players. I like the excitement of watching the World FIFA Cup. My family does not have any pets, but I hope to have one. If I had the choice, I would choose the cat, because it's cute and nice. I would have only one, because it's enough for me.

If someone asked my friends about me, they would say I have a sense of humor, I am friendly, and smart. When I grow up, I want to be a nurse. I am planning to go to Princess Mona College to become Army nurse. I am passionate about helping people, and biology, because I like to study what happens in the body.

Wishing you the best success,
Majd
