

Sama Musleh
Amman, Jordan
Saturday, December 4, 2021

Dear X,

I hope you're doing well! My name is Sama. I am a 14-year-old student in Amman, Jordan. My hobbies include reading books, shopping, doing sports, and watching films. My favorite book is "Forty" by Ahmad Shuqayri. It talks about forty years of his life. One thing I particularly enjoy is food. My favorite foods include noodles, burgers, chicken shawarma, and falafel. You can find all kinds of restaurants.

Jordanian families are very close. Every weekend, I gather with my family over tea. I spend a lot of time with my cousins and we talk about funny things. They're my best friends. Unlike a lot of kids, I like school and I like studying. My favorite subject is Biology and my least favorite is Arabic Grammar. Even though I face difficulties while studying, I always work hard to overcome them. Do you face difficulties too? I hope that you don't give up and keep trying.

What about you? Do you have any hobbies? What's life like in the UK? I hope to hear from you soon.

Best Regards,
Sama
