

Naameh, Lebanon
19th November, 2021

Dear Friend,

My name is Roaa. I am 12 years old. I live with my parents and my sister. I have one sister and her name is Leen. The name of my school is Naameh School and I am in grade 7. I have 3 friends and their names are Maram, Hanan and Nadin. Hanan and Maram are twin sisters. We first became friends during our Sports class. They were solving their homework and asked me for help. I agreed to help them and since then, we became close friends.

I like my classroom as it is very beautiful but sometimes when the teacher is not in class, the students are very chaotic and I dislike this chaotic environment. Therefore, sometimes I write the names of the students who are breaking the rules and report about them to the teachers so that our classroom is always in a nice environment.

My favorite teacher is my Arabic teacher and her name is Nahida. I like Miss Nahida a lot because she is a very kind and caring teacher. She always appreciates me when I am sharing with others and also gives me good grades when I am doing well in class.

I am not into much outdoor activities but I enjoy doing yoga. I ensure I complete my yoga at least once a week. Most of the time, my sister and my mother accompany me in doing yoga. I find yoga extremely relaxing and the days I go without completing it, I feel sulky. Moreover, yoga is good for one's health, so it is a form of exercise I try to incorporate into my daily life.

I like studying regularly and one of the subjects that I enjoy is Maths. I tend to have Maths class everyday in my school and specially on Mondays, we have consecutive Maths classes. Even though Maths is a little difficult, I have always enjoyed it because it is a logical subject and requires lots of mental exercise. On top of that, my maths teacher is good at making Maths fun and easy to understand for us. During my holidays, I try to do maths on my own so that I can further improve my Maths skills.

Apart from studies, I enjoy listening to both Arabic and English music as well as doing some arts. One of my most favorite songs is Despacito by Luis Fonsi. I enjoy this music so much that at times I tend to listen to it in loops. And my favorite Arabic song is Ensay by Mohammad Ramadan. Also, in my free time, I love to colour in my colour books. There was a trend where we coloured the entire paper with pencil strokes and later on erased the drawing we were supposed to colour. This was a weird trend but the results were beautiful.

I have always enjoyed eating delicious food but there are some which are my favorite and my must haves. One of these is rice and chicken. And my favorite fruits are pineapple, strawberry, banana and kiwi. Moreover, I always enjoy a good crepe.

I love to travel and visit exotic places but I have a fear for aeroplanes which is why I do not travel often. But I want to visit Turkey as I am an avid follower of Turkish serials and want to experience their culture first hand.

These are some of the interesting things about my daily life. I would be happy if you can also share some interesting facts about you and your experiences.

With regards,
Roaa
